

Dear Attorney General of Federal Republic of Germany Peter Frank,

In the enclosed new report of the Rainforest Action Network you find all necessary details, how and which banks all over the world massively violate the Paris Agreement by financing fossil industry and so knowingly destroy the entire mankind.

[Banking-on-Climate-Chaos-2021.pdf \(ran.org\)](#)

[Banking on Climate Chaos - Rainforest Action Network \(ran.org\)](#)

You and your team just have to google the names of the CEOs and board members of all these banks and then you can start official investigations against them because of having committed and further committing

- genocide acc. Art. 6 (c) Rome Statute and
- crime against humanity acc. Art. 7 (1) b Rome Statute.

According to the „Weltrechtssystem“ you are able to start investigations as well against offenders from other states.

And to prevent any further committing of the accused highest crimes you yourself are absolutely obliged to most officially start investigations against each of the offenders and most immediately stop and prosecute them.

Further the highly illegal invested fossil money is at once to be confiscated and best invested into renewable energy.

Karlsruhe, Germany, March 24 2021

Best regards
