

**To all Citizens of Russia, USA,
Saudi Arabia and United Arab Emirates:
We are at the tipping point of survival or
extinction of entire mankind!**

- **So use your vote for the survival of mankind to stop the massive further deadly heating of our atmosphere, oceans, ice and the entire earth by fossil fuels!**
- **Kick out Putin, Trump, Prince Salman and bin Zayid as globally most aggressive and outdated oil state leaders!**
- **Stop their starting World War III against Ukraine, Europe, NATO, UN, COP 28, Paris Agreement and entire mankind - just to keep and even expand their lethal oil production, oil profits and oil power**
- **bring them (and all their helpers, think tanks, chiefs of oil industry, investors and share holders) before the International Criminal Court (ICC) for global genocide and crimes against all humanity and get all their huge assets seized to easily finance the global energy transition**
- **Vote for responsible forward-looking democratic leaders who will manage the immediate globally subsidized energy transition to renewables with highest priority**
- **to most effectively save humanity from irreversible extinction at the last minute**
